### EXCEPTIONAL, PREISTIPP award (TOP CLASS)

A rave review and the PREISTIPP award TOP CLASS category for the HTA-700B v.3-USB hybrid amplifier by “HiFi Test”, a German reputable audio magazine (06-2020).

*The Taga HTA-700B v.3 is a handy, pretty and quite powerful integrated amplifier in the hybrid technology. Tubes in the preamplifier provide a harmonic sound, transistors supply enough current for high dynamics. The extensive features of the Taga are well suited for modern and also classical music media.*

#### Rating

- \* warm, powerful sound
- \* solid construction
- \* optional USB input
